

# J.O.E.® - JURA Operating Experience

The JURA Operating Experience brings state-of-the-art coffee machine operation to your smartphone. J.O.E.® is the most intuitive, convenient and modern way to make optimum use of all the advantages offered by JURA automatic speciality coffee machines\*. With the JURA Operating Experience you can control your JURA coffee machine\* from your smartphone, with all the convenience of touchscreen operation.

# A world full of possibilities

All specialities can be set in accordance with your personal taste and can be identified by a customised image. Your own personal preferences are saved on your smartphone or tablet and ready to be accessed as soon as you need them, statistics can be called up and forwarded in no time, support videos are available right away, and replenishments for maintenance products and coffee can be ordered through the shop in a few simple steps.

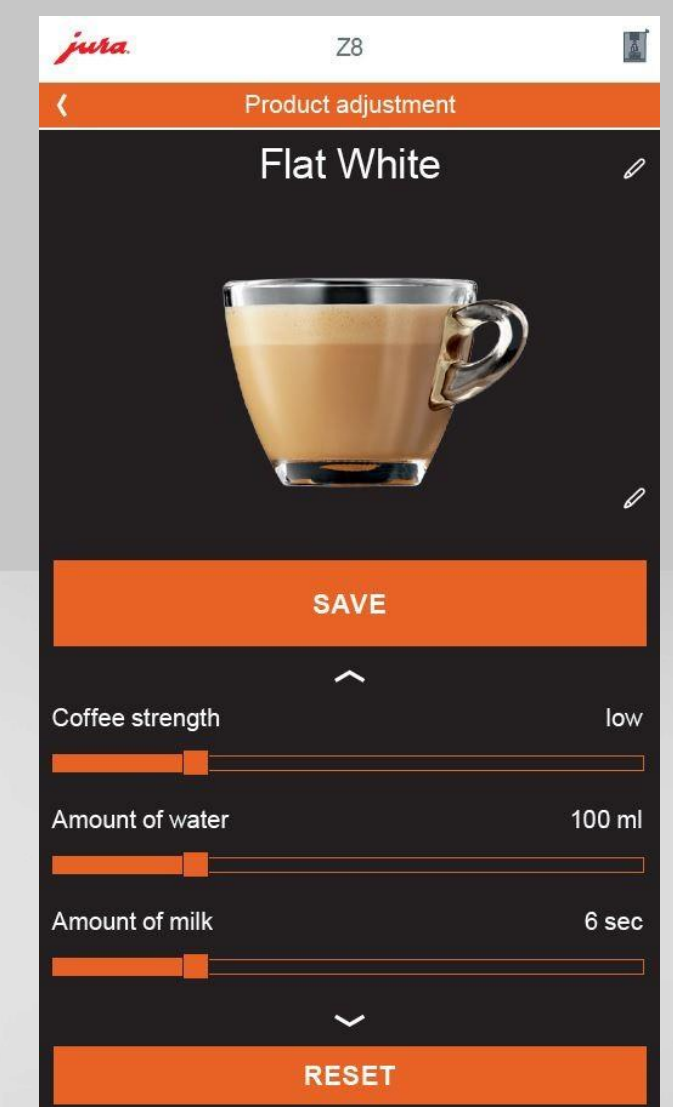

# Product settings

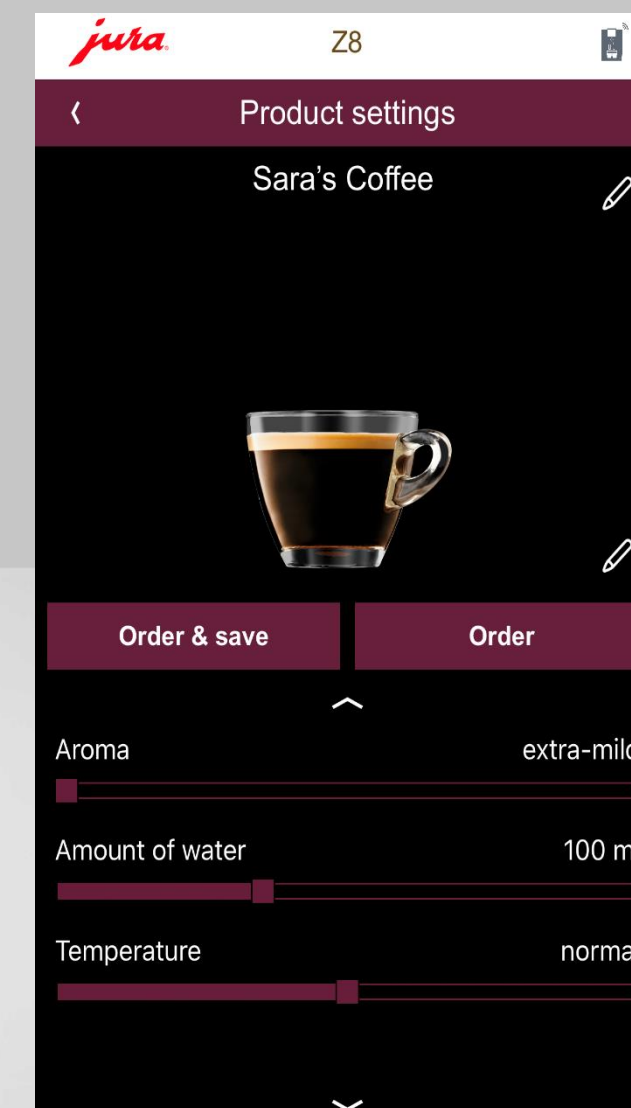

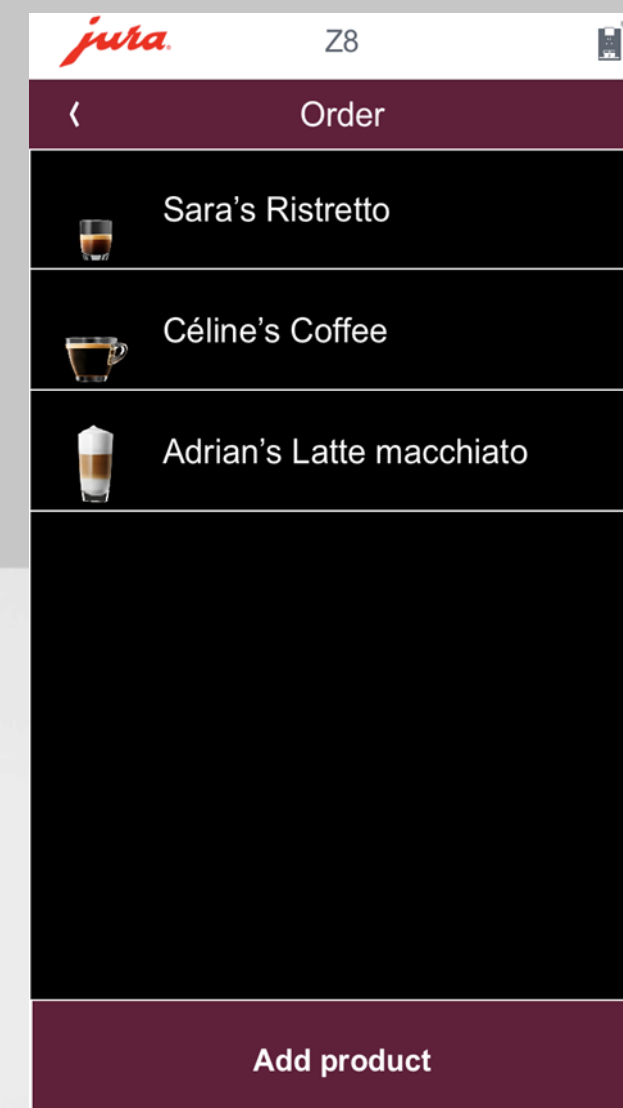

J.O.E.® can be set to make your favourite coffees exactly the way you like them. You can call your favourite speciality coffees whatever you like and assign an image of your choice. Use the scroll bar to adapt the settings to your personal preferences and enjoy a coffee experience to suit your personal taste.

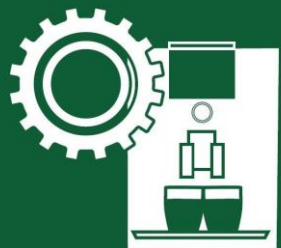

# Order

Enter all your guests' coffee choices by simply tapping the symbols and then prepare the specialities.

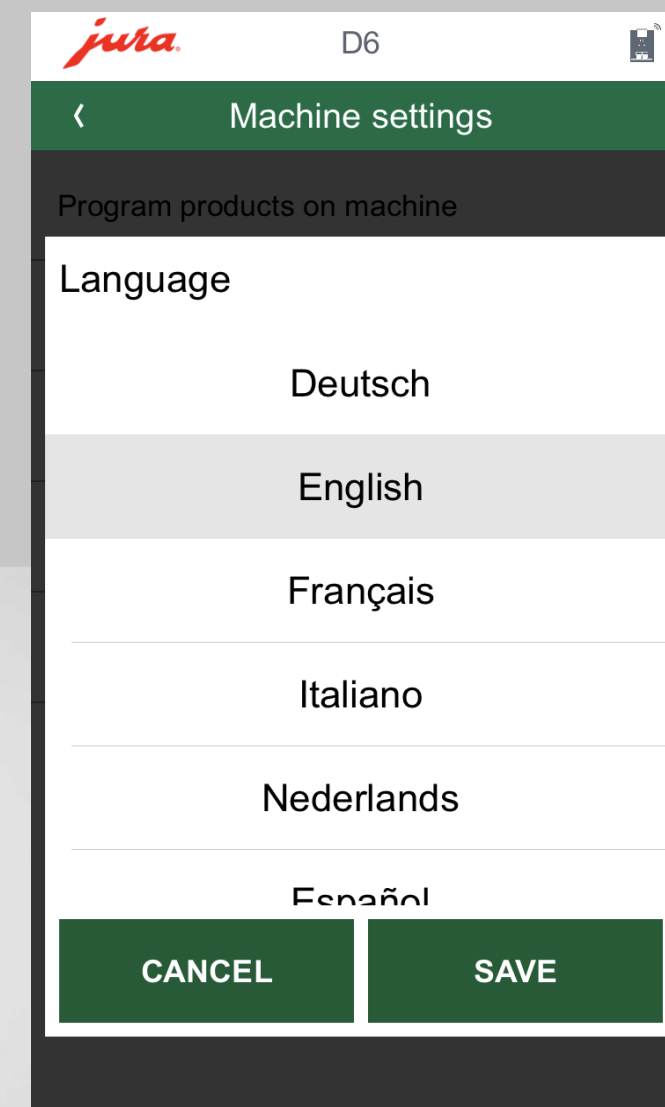

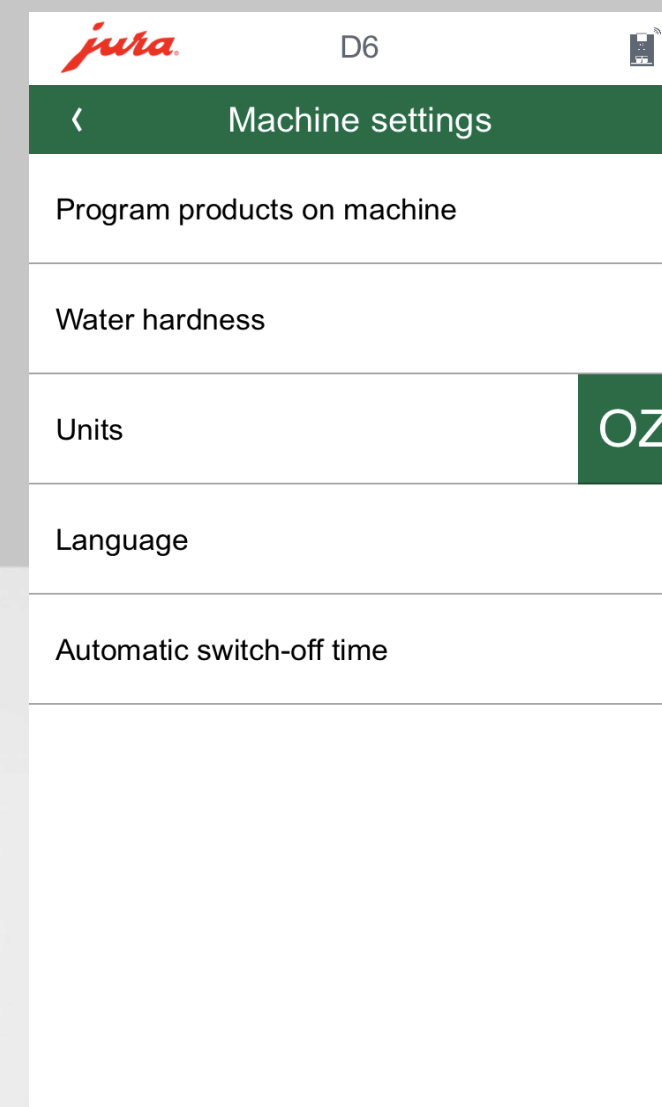

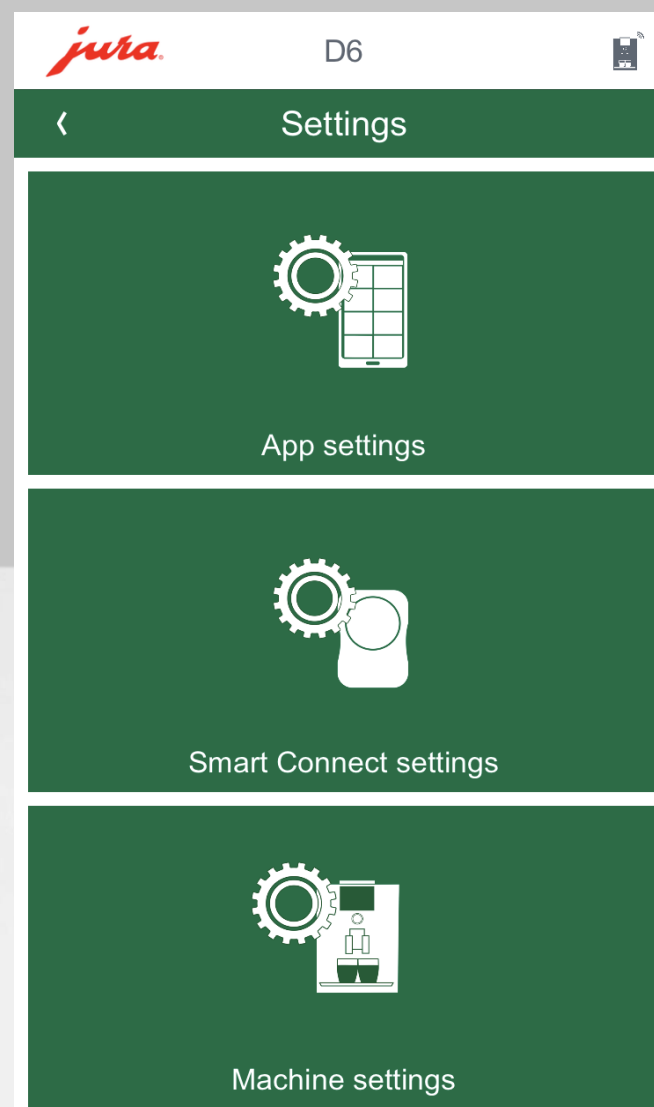

# Settings

Change the basic settings according to preference and save them on your coffee machine\*.

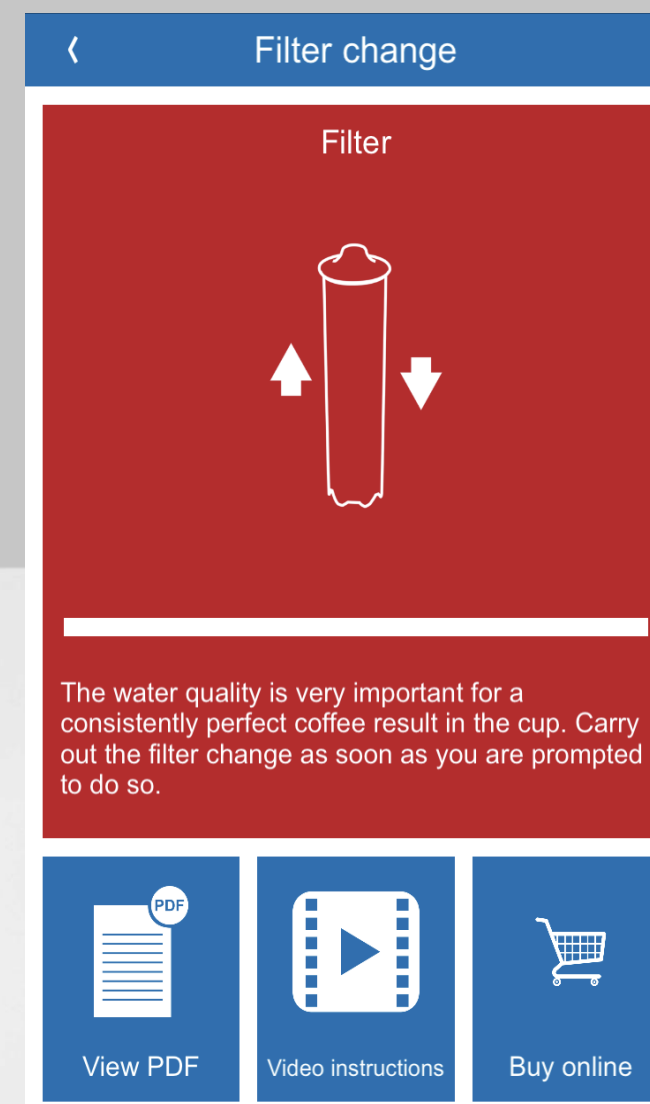

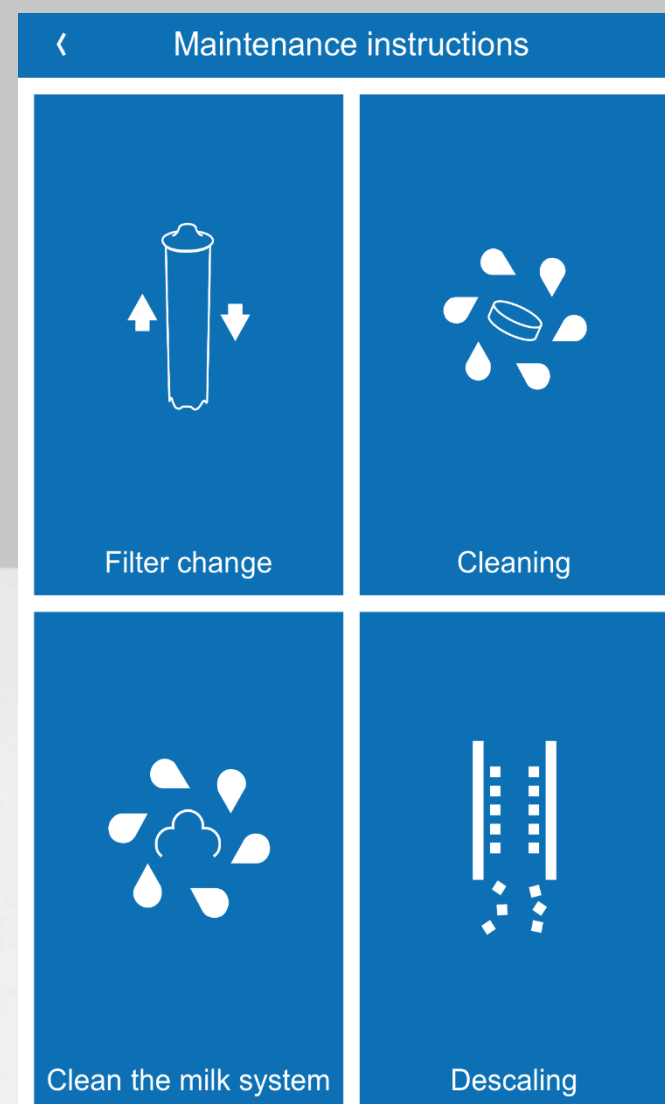

\*E8 / E80 / E800, D6 / D60 / D600 and ENA 8

# Maintenance

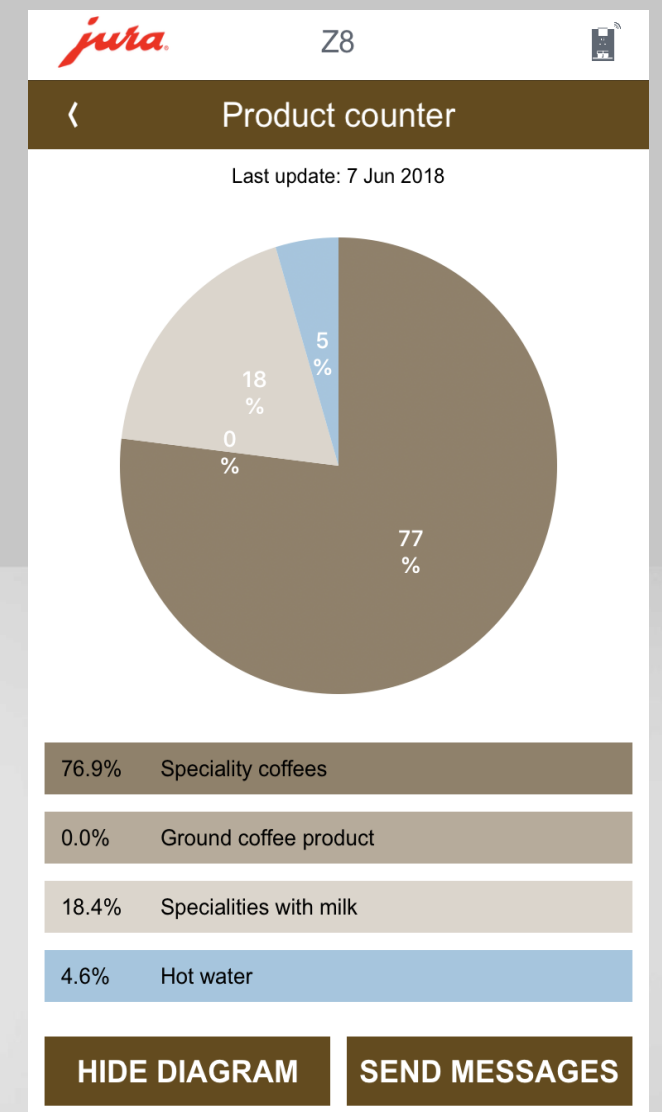

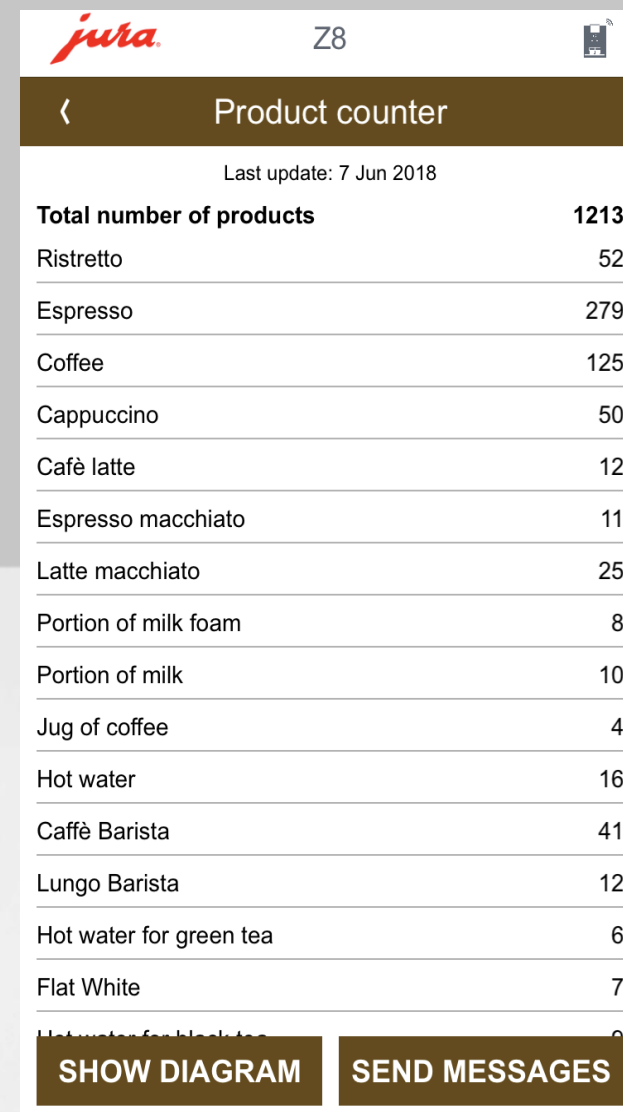

J.O.E.® uses pictures and text to guide you through all maintenance programmes one step at a time. It's easy to achieve TÜV-certified hygiene with JURA.

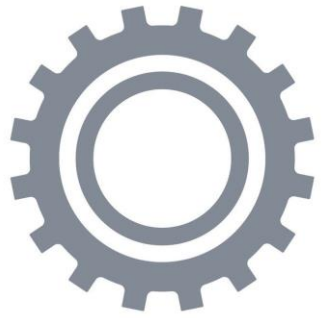

# Statistics

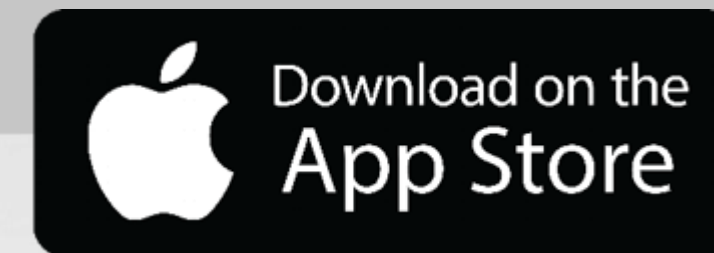

Indispensable in any professional setting and fascinating to have at home: a clear statistical overview which can be quickly forwarded by e-mail when required for evaluation.
